DOT GOBBLER

"**DOT GOBBLER**" is a challenging, fast action maze game that's equally fun for one or two players. It's high resolution color graphics and nine speed variations make it the best maze game on the market today.

Bet you can't play it just once!

OBJECT OF THE GAME

Try to gobble up the dots before the hungry ghouls catch you. Gobble one of the large power dots for added strength and it's your turn to chase the ghouls for extra bonus points.

DIRECTIONS

Plug the "**DOT GOBBLER**" game directly into your Commodore computer. Pass the joystick for a second player. This game is designed to be used with the Commodore or a compatible joystick.

The "**DOT GOBBLER**" will move in the direction of the joystick.

This game will not operate if a disk drive is connected to your computer. Don't forget that your shift lock must be in the up position.

1) Type "1"(fastest) through "9"(slowest) for speed.
2) Type "1" for one player or "2" for two players.
3) If necessary-use cursor to center maze.
4) If necessary-push F7 to remove jitters.
5) Hit FIRE Button to start.

GOOD LUCK!
